

BEACON AVE S + 18TH AVE S

ABOUT THE BUILDER

Catherine, owner and founder of Solid Rebuild, was inspired by her grandfather at an early age. He fostered her creativity and building abilities by introducing her to woodworking. Their first joint project was a canoe built from a branch. This captivated her by realizing nature's abundance to be converted into something sustainable. Applying these techniques into her early career in set design and building, she learned how to creatively utilize available resources and make do with what was at hand. Catherine was the winner of Build Magazine's 2020 Best Women Builder award.

Fast forward to 2014, who would know recycling and reenergizing what is at hand would become a fashionable word called "green". This philosophy is something inbred in both her design sensibility and her core values; never wasting materials, always looking for other uses, and a deep respect for nature are intrinsic to her and her company Solid Rebuild's purpose.

ABOUT THIS PROJECT

- 4 single family townhomes
- 2 and 3 bedroom floorplans available
- Targeting 4-Star Built Green
- Rooftop decks
- Attached garages provide parking for 2 of the homes
- AGENTS: Please refer to FAQ document in NWMLS supplements for more information about these homes and project
